(Ord. No. 99-404, § 1, 4-28-99)

Sec. 6-55. Temporary permit; registration for productions.

(a) In this section, the term production means any temporary exhibition or use of a wild animal for purposes of a television, movie or stage production, circus or carnival performance, traveling zoo or animal exposition or other similar use.

(b) A temporary and nonrenewable permit to possess a wild animal in the city for a period of not more than 30 days may be obtained from the director for the purpose of a production. The applicant for such a permit shall demonstrate to the director that:

- (1) The wild animal is required for the production;
- (2) The wild animal will be in the direct charge of its trainer or another person who is familiar with the wild animal and has been trained in its handling and care;
- (3) The applicant will, consistent with the size and characteristics of the wild animal, have additional handlers available as required to control the wild animal at any time that it is not confined;
- (4) The owner of each place where the production will take place and the owner of each place where the wild animal will be kept, if different, has consented in writing to its presence;
- (5) The applicant holds a policy of public liability insurance issued by a carrier authorized to write the policy under Texas law in an amount of not less than \$100,000.00, per occurrence, providing coverage in case of injury or death of any person or damage to any property that results from negligence in the control or handling of the wild animal; and
- (6) The wild animal will be kept in such manner as to prevent its escape and to prevent injury to persons not associated with the production.

(c) Applications for permits shall be made in writing to the director upon forms promulgated for that purpose and at least 20 days before the commencement of the production. Each application shall be accompanied by a nonrefundable fee of \$100.00 for five or fewer wild animals, \$200.00 for six to ten wild animals or \$300.00 for 11 or more wild animals.

(d) A permit issued under this section is valid only for the designated production and the keeping of a wild animal in the city for that limited purpose and shall only extend for the duration of the production.

(e) The director shall have the right to inspect a wild animal at any time while it is being kept under a permit issued under this section.

(f) In the event that the director proposes to deny a permit application, the applicant shall be afforded notice of the reasons and an opportunity for a hearing. Following notice, the director may revoke a permit for any violation of this article or applicable state or federal laws. The permit holder shall be afforded an opportunity for a hearing before a permit is revoked. Pending the hearing, the director of health and human services or any deputy or assistant director may suspend the permit if the actions of the permit holder appear to constitute a substantial hazard to public health or safety. Hearings and proceedings shall be conducted in the same manner as provided in chapter 20 of this Code for denials, suspensions and revocations of food dealer's permits.

(g) The provisions of this section shall not be construed to require a person to obtain a city permit if the person holds a current and valid exhibitors license under the federal Animal Welfare Act (7 U.S.C. § 2131 et seq.) or a current and valid circus, carnival or zoo operators license issued under chapter 824 of the Texas Health and Safety Code and is conducting the production under authority of the state or federal license, provided that the person registers his production with the director and provides the following information:

Sec. 6-56. Impoundment.

(a) The director shall seize any wild animal possessed in violation of this article and impound the animal at the animal control center or other suitable place. The director, any animal control officer or any police officer of the city may enter any building or property to seize a wild animal therein that is possessed in violation of this article upon consent of an adult occupant of such building or property or one having the right of possession of such building or property, or under a warrant issued by a magistrate.

(b) The director shall impose a fee for the impoundment of a wild animal in the amount of not less than \$50.00 nor more than \$250.00, per animal, and a daily boarding fee of not less than \$5.00 nor more than \$75.00, per animal. The amounts of the fees shall be predicated upon the cost of impoundment, care and feeding of the type of wild animal impounded, and the director may promulgate a schedule of applicable fees for various types of wild animals.

(c) A wild animal that has been impounded for the first time may be redeemed within seven days by its owner if:

- (1) The owner demonstrates that he holds any state or federal license or permit required to keep the animal;

- (2) The animal is not believed to be infected with rabies or any other infectious disease; and

- (3) The owner provides a sworn affidavit setting forth that the wild animal will immediately be removed from the city and will be kept at an identified place where its possession is not unlawful.

The director may require that a wild animal that is released under this subsection be tattooed or otherwise made identifiable in the event that it is again impounded.

(d) Consistent with applicable state and federal laws and regulations, the director shall dispose of any wild animal that is not timely redeemed following its first impoundment and of any wild animal that is again impounded by placing the wild animal in a public zoo or at a reserve, sanctuary or shelter operated by or under the auspices of a recognized humane organization. If such a placement is not practicable and cannot be made within 30 days following the date of impoundment, the wild animal may be destroyed if destruction is not prohibited by state or federal law.

(b) The owner or person in possession of a wild animal may obtain a special permit to continue to keep the wild animal until it dies or is removed from the city upon written application to the director and demonstration that:

- (2) The wild animal has been spayed or neutered, if the animal is of a type that may be sterilized;
- (3) The wild animal has been tattooed with a control number assigned by the director, if the animal is of a type that may be tattooed; and
- (4) The wild animal will be confined in a cage or other enclosure that will reasonably prevent its exposure to any member of the public.

(c) Any such request for a special permit shall be filed with the director within 60 days following April 27, 1999, provided that the director may grant an extension if the director determines that the failure to file within 60 days was not intentional on the part of the applicant.

(d) A special permit issued under this section is exclusively limited to the keeping of the animals specifically identified therein, at the same place where they were kept on April 27, 1999. The special permit shall not be valid at any other location nor shall it apply to any replacement animals or any progeny of the specified animals.

(e) The director may impose an inspection fee to cover the cost of any inspection reasonably required in connection with the issuance of a special permit.

(f) In the event that an application for a special permit is denied, the director shall advise the applicant of the grounds therefor. The director may revoke a special permit for violation of any requirement of this section. In the event that an application is denied or a permit is proposed to be revoked, the applicant or permit holder shall be afforded the right to a hearing on the matter before a hearing officer designated by the director. Proceedings shall be conducted in substantially the same manner as is provided in chapter 20 of this Code for denials and revocations of food dealer's permits.

that it could not escape from the vehicle; it could not come into contact with any person who was not also within or upon the vehicle; and it could not come into contact with the driver of the vehicle while the vehicle was in motion.

(b) It is also an affirmative defense to prosecution under either section 6-51 or section 6-53 of this Code that, at the time of the alleged offense:

- (1) The actor was actually utilizing the wild animal at a production site for the purposes of the production of a motion picture being made for viewing by the general public, or a film or tape designed for use in a television show or television advertisement and in which the use of the wild animal was specified by the script; and

ARTICLE IV. DOGS AND CATS

DIVISION 1. GENERALLY

DIVISION 2. LICENSE AND VACCINATION

Sec. 6-86. License required.

(a) No person shall own, keep, possess, or have control over any dog or cat within the city unless such person has a current city license for such dog or cat, provided that a city license shall not be required for:

- (1) Dogs and cats under the age of four months which are confined in a place owned or under the possession of the person having ownership, possession or control of the dog or cat within an enclosure which is sufficient to prevent escape therefrom;
- (2) Dogs or cats owned by or in the possession or control of persons who are nonresidents of the city, traveling through the city, or temporarily sojourning therein for a period not exceeding 30 days;
- (3) Dogs or cats brought into the city exclusively for the purpose of entry in any show

or exhibition, and which are actually entered in and kept at such show or exhibition;

- (4) Dogs or cats kept for teaching or research purposes by a medical school, veterinary school, licensed hospital or nonprofit university or college providing a degree program;
- (5) Dogs or cats kept for the purposes of medical observation or treatment in veterinary hospitals;
- (6) Dogs or cats kept in the shelter facilities of a humane organization;

 - b. The animal has a current license as issued by the city, county or other applicable licensing authority governing the licensing of animals in the place where the animal is normally kept by its owner.

In any prosecution under this section, the burden shall be upon the defendant to establish as an affirmative defense that one of the exceptions set out in subparagraph (a)(1) through (a)(9), above, is applicable.

(b) No person shall permit any dog or cat on any premises under his ownership, possession or control unless there is a current license issued for such dog or cat; provided, however, it shall be an affirmative defense that the animal is not required to have a license pursuant to any applicable exception listed in subsection (a) above.

(c) A person may obtain a license for a cat or a dog (either sterilized or unsterilized) by completing the appropriate application therefor, paying the prescribed license fee, and furnishing proof of

(a) It shall be the duty of each person having ownership of a dog or cat for which a license is required to be issued under this article to ensure that the license tag furnished by the licensing authority in conjunction with the issuance of the animal's license is worn by the animal at all times. It is a defense to prosecution hereunder that the dog or cat was confined within a building or other totally enclosed structure under the ownership, possession or control of the person having possession of the animal at the time that the animal was not wearing a license tag.

(b) In any prosecution under this article it shall be presumed that no valid license has been issued for an animal hereunder unless the animal was wearing a valid license tag furnished pursuant to section 6-92 at the time of the alleged offense.

Sec. 6-88. Fees.

- (5) In order to partially defray the city's additional costs associated with late issuance and renewal of licenses, a late processing fee of \$10.00 shall be added to the cost of the dog or cat license fees, if the applicant fails to obtain such license within 30 days of the earlier of the following dates:
 - a. The anniversary date of the dog or cat's vaccination against rabies shown on prior dog or cat licenses;
 - b. The date the dog or cat is first brought into the city;
 - c. The date the dog or cat reaches the age of four months;
 - d. The date the applicant first acquired the dog or cat over the age of four months.

For purposes of avoiding the foregoing late processing fee, the date of the application shall be the date that it is actually received by the licensing authority in complete and valid form, including all required certificates; provided, that mailed applications shall be deemed to have been received on the postmark date, if legible.

(b) In the event of a change of ownership of the licensed animal or in the event of a change of address of the licensed animal's owner, then the director may cause the license to be amended to reflect such change of owner or address, provided that an application for amendment is received by

the director within the thirty-day period next following the date of the change. The director may issue administrative rules and regulations relating to the designation of deputy licensing authorities and their issuance of licenses. A copy thereof shall be maintained for public inspection in the offices of the director and the city secretary. A deputy licensing authority may not impose any fee in addition to that specified in this article for the issuance of a license, but the deputy licensing authority may retain \$1.00 or ten percent of the applicable fee, whichever is more, from the fee for each license issued as compensation for his services in issuing the license.

approved by the U. S. Department of Agriculture's Veterinary Biologics Division in accordance with the recommendations of the manufacturer, and that such vaccination will not expire prior to the issuance of the license. No animal license shall be issued for an animal as being a spayed or neutered animal unless there is also exhibited to the licensing authority a certificate by a veterinarian or other clear and convincing evidence that the animal has, in fact, been spayed or neutered.

Sec. 6-92. Records.

At the time of issuance of each dog or cat license hereunder, the licensing authority shall furnish a numbered license tag which shall be worn by the animal to evidence the issuance of the city license hereunder. The license tag shall be valid for so long as the animal's license remains valid. The department of public health shall maintain a record of all licenses issued under this article, which shall show the name and address of each person issued a license, the number of the license tag furnished, a description of the dog or cat for which the license is issued, the date of issuance, the fee paid, the place of issuance, the type of rabies vaccine administered and the date of inoculation.

(b) In any prosecution under this section, the burden shall be upon the defendant to prove that the animal is not required to be vaccinated because it is less than four months of age or that the animal was in fact vaccinated within the immediate preceding period of one year. A certificate duly signed by a veterinarian attesting that he administered the vaccination required by this section, bearing the date and type of vaccine and the identification of the dog or cat by breed, color, and sex and the vaccination tag number and the name and address of the owner shall be accepted as evidence of such vaccination.

(Code 1968, § 6-55; Ord. No. 85-296, § 7, 2-27-85; Ord. No. 03-393, § 2, 4-23-03)

For purposes of this section a veterinarian shall be deemed to vaccinate an animal whether he personally administers vaccine to the animal or causes or allows the vaccine to be administered under his supervision or his control.

(b) The director shall have information bulletins and license application forms printed. The information bulletins shall contain such information concerning the ordinances regulating dogs and cats as the director finds will aid in enforce-

ment of the city's requirements for licensing animals. The director shall make copies of the information bulletin and the license application form available for distribution to veterinarians and their employees in quantities sufficient to meet their needs under this section, without charge, at the city's animal control center during the center's regular business hours.

 - c. The serial number of the vaccination tag furnished;
 - d. The name and the current address of the person owning or keeping the animal; and

(e) Each veterinarian is encouraged to inform any person who is furnished a vaccination tag by the veterinarian, or any agent or employee of the veterinarian, that such vaccination tag does not constitute a city license and to provide such information in writing and in a manner that such information is clearly conspicuous to the reader of the writing.

The mailing of notice shall be deemed sufficient notice under this section if it is mailed to the owner at the address shown in the city's records for such license if the dog is wearing a city license tag, or to the address shown in the local veterinarian's records if the animal is not wearing a city license tag but is wearing a local veterinarian's tag.

Dogs wearing a city license tag not more than two years old or a current local veterinarian's tag shall be held in designated pens for the owner for six days from the date the owner was notified by telephone or notice was mailed to the owner. (b) Such license tax shall be for the calendar year or any part thereof during which such dog kennel shall be maintained, and shall be due and payable in advance on or before January first of each year.

(c) The fee imposed under subsection (a) above shall not be applicable to a kennel which is operated by a humane organization as a shelter facility, provided that the humane organization demonstrates to the licensing authority that the facility is devoted exclusively to the care and custody of sick, injured, lost, abandoned or strayed animals and that the humane organization provides veterinary services for the care of the animals kept therein under the supervision of a veterinarian who is employed or retained by the humane organization. The foregoing fee exemption shall not be construed to exempt the humane organization from maintaining a valid license for any kennel which it may operate or from compliance with any applicable ordinance governing the operation or location of a kennel facility.

Sec. 6-124. Same—Records to be kept.

The department shall keep a permanent record of all dog kennel licenses issued under the terms of this chapter, which record shall show the name and address of all persons being issued a kennel license, the name and address of the kennel, the number of the kennel license, the date issued and the amount paid therefor.

(Code 1968, § 6-70; Ord. No. 69-985, § 2, 7-2-69)

Sec. 6-125. Same—Suspension, revocation.

(a) *Grounds for suspension.* The director of the health department, or deputy director, may suspend any kennel license if any of the following conditions exist at the kennel:

- (1) Animals at the kennel are being deprived of necessary food, care or shelter;
- (2) Animals at the kennel are being cruelly confined or are otherwise being cruelly treated; or
- (3) Unsanitary conditions exist at the kennel to such an extent that those conditions create a

possible medium of the transmission of disease to the animals kept there or to human beings.

Such a suspension is effective upon service of notice as set out in section 6-125(b). Whenever a kennel license is suspended no animal shall be accepted or placed in the kennel and all animals at the kennel on the date the license is suspended shall be removed therefrom as soon as possible, but in no event shall any animal remain in the kennel more than ten (10) days after the date the license was suspended unless it has been reinstated prior to that time.

(b) *Written notice of suspension.* Whenever a license is suspended, written notice shall be given to the licensee, the person in charge of the kennel, or any employee or agent of the licensee. Such notice shall set forth:

- (1) The specific conditions existing at the kennel which are grounds for suspension of the license pursuant to subsection (a) above;
- (2) That a hearing will be held before the director of the health department or his designate;
- (3) The date, time and place of such hearing; and
- (4) That the licensee may appear in person and/or be represented by counsel and may present testimony and cross-examine all witnesses.

Such hearing shall be held not later than seven (7) days after the date the license is suspended.

(c) *Conduct of hearing.* All hearings shall be held by a hearing officer designated by the director of the health department; the said director shall not designate any person to perform the duties of hearing officer under this section who has participated in the inspection or inspections of such kennels, or has prior knowledge of the allegations or circumstances discovered in such inspection or inspections, except that such person designated as hearing officer may, prior to the hearing, receive a copy of the notice given to the licensee or person in charge, and may have acted as hearing officer in any prior hearings concerning a suspension of such kennel license.

All hearings shall be conducted under rules consistent with the nature of the proceedings; pro-

vided, however, the following rules shall apply to such hearing:

- (1) All parties shall have the right to representation by a licensed attorney though an attorney is not required;
- (2) Each party may present witnesses in his own behalf;
- (3) Each party has the right to cross-examine all witnesses; and
- (4) Only evidence presented before the hearing officer at such hearing may be considered in rendering the order.

If the licensee fails to appear at the hearing at the time, place and date specified, the city shall present sufficient evidence to establish a prima facie case showing that conditions exist at the kennel which are grounds for suspension of the license pursuant to subsection (a) above.

(d) *Findings of hearing officer.* If the hearing officer finds conditions which were stated in the notice for grounds for suspension of the license pursuant to subsection (b) above in fact do exist at the kennel, the hearing officer shall make written findings of fact and shall order the license suspended. Provided, however, if the hearing officer finds that the needs of the animals and of public interest will be adequately protected by a warning, he may reinstate the license.

If the hearing officer finds that on the date of the hearing no conditions exist at the kennel which were set out in the notice as grounds for suspension of the license, he shall order such license reinstated. However, reinstatement of such license shall not preclude the city from seeking revocation of the license as set out below.

A copy of the findings and order of the hearing officer shall be served on the licensee, or if the address of the licensee is unknown or the notice has been sent certified mail, return receipt requested and has been returned undelivered, such notice shall be served on the person in charge of the kennel or on any employee or agent of the licensee.

(e) *Correction of conditions; inspection; reinstatement of license.* Whenever the reason for a

suspension no longer exists, the licensee or person in charge of the kennel shall notify the veterinary division of the health department that the conditions under which the license was suspended have been corrected and that an inspection is requested. Such inspection shall be conducted as soon as possible after receiving the request and in no event shall be later than three (3) regular working days after the receipt of the request for an inspection. If such inspection shows that the conditions were in fact corrected, the license shall be reinstated unless the city has given notice that it is seeking revocation of the license.

(f) *Conditions for revocation.* A license to operate a kennel may be revoked if:

- (1) Animals at the kennel are being deprived of necessary food, care or shelter;
- (2) Animals at the kennel are being cruelly treated;
- (3) Unsanitary conditions exist at the kennel to such an extent that those conditions create a possible medium for the transmission of the disease to the animals kept at the kennel or to human beings;
- (4) Conditions stated in subsection (f)(2) and/or (f)(3) above have existed on two (2) or more occasions at the kennel after the kennel has been warned of such conditions by officials of the health department;
- (5) There have been two (2) or more suspensions of the kennel license and conditions which were grounds for such suspensions did in fact exist at the time of the suspension;
- (6) The licensee is shown to have committed any offense involving cruelty to animals;
- (7) The licensee has knowingly employed any person at the kennel or allowed any person to work at the kennel who has been convicted of any offense involving cruelty to animals.

(g) *Written notice of grounds for revocation.* Prior to revocation, written notice shall be given to the licensee or person in charge. Such notice shall set forth:

- (1) The grounds upon which the city will seek revocation of the license;

ANIMALS AND FOWL

§ 6-126

- (2) The specific conditions upon which the city will rely in seeking revocation of the license;
- (3) That a hearing will be held before the director of the health department or his designated agent;
- (4) The date, time and place of such hearing;
- (5) That the licensee may appear in person and/or be represented by counsel, may present testimony and may cross-examine all witnesses.

Such hearings shall be held in accordance with subsection (c) above. If the licensee fails to appear at the hearing at the time, place and date specified, the city shall present sufficient evidence to establish a prima facie case showing that grounds in fact do exist for the revocation of the license.

(h) *Findings of hearing officer.* After completion of the hearing, the hearing officer shall make written findings as to whether or not grounds exist for revocation of the license. If the hearing officer finds that grounds do exist for revocation of the license, he shall revoke such; provided, however, if the city sought revocation for reasons under subsection (f)(1), (2) and/or (3) above and no grounds exist for revocation under (f)(4), (5), (6) or (7) above, the hearing officer may deny the request for revocation if he finds that the needs of the animals and the public interest will be adequately protected by a warning.

A copy of the written findings shall be served on the licensee. If the address of the licensee is unknown or if such findings have been sent certified mail, returned receipt requested, and returned undelivered, such findings shall be served on the person in charge of the kennel or on an agent or employee of the licensee.

(i) *Removal of animals upon revocation of license.* If the license is revoked, no animal shall be accepted or placed in the kennel and all animals at the kennel on the date the license is revoked shall be removed therefrom as soon as possible, but in no case no later than ten days after notice that the license has been revoked was served on the licensee, his agent or his employee.

(j) *Service of notices.* Any notice provided for in this section may be served by personal delivery or by certified mail, return receipt requested.

(k) *Nonrefundability of license fee; reinstatement of license.* In the event a license is revoked, the city shall not be liable to the licensee for any refund of any part of the license fee. Reinstatement of a license that has been revoked shall require application and payment of a permit fee as if it were an initial application; provided, however, no license shall be issued to the same licensee if the licensee has been convicted of any offense involving cruelty to animals; no license shall be issued to the same licensee within one year of the date a license has been revoked; and no license shall be issued for the same location unless it is shown that adequate precautions have been taken so that the conditions under which the license was revoked shall not reoccur. If there is a dispute between the inspector and a person applying for a license for a place for which a license was revoked as to whether adequate precautions have been taken so that the conditions under which the license was revoked will not reoccur, the applicant may request a hearing before the hearing officer. Such hearing shall be conducted under the same procedures as a hearing for a revocation of a license, however the burden shall be on the applicant to show that adequate precautions have been taken so that the conditions under which the license was revoked will not reoccur.

(Code 1968, § 6-71; Ord. No. 69-985, § 2, 7-2-69; Ord. No. 81-199, § 1, 2-4-81)

Sec. 6-126. Minimum distance of dog kennel from residence, church, school or hospital.

(a) It shall be unlawful for any person to operate or maintain in the city a dog kennel within 100 feet of any actual residence or habitation for human beings, or within 100 feet of any church, school or hospital, other than the residence of the keeper, possessor or owner of such dog kennel, such distance of 100 feet to be measured in a straight line from the nearest point of any kennel, pen, enclosure, or other structure in

which such dogs are kept to the nearest point of such actual residence or place of human habitation, or church, school or hospital.

(b) Subsection (a) of this section shall not apply to any dog kennel that has received approval from the department to operate at a distance less than 100 feet because the dog kennel has implemented containment measures, such as climate control, flooring, wall and ceiling covering, and flushing systems, in compliance with guidelines promulgated by the health officer to ensure standards of cleanliness and other disease control measures. Current copies of such guidelines shall be maintained in the office of the city secretary and at the health and human services department for public inspection. The approval required under this section shall be in writing and signed by the health officer or his authorized representative.

(c) Notwithstanding the foregoing subsection, in no instance will a dog kennel license be issued, reissued or renewed for the existence of a dog kennel within 30 feet of any actual residence or habitation for human beings, or within 30 feet of any church, school or hospital, other than the residence of the keeper, possessor or owner of such dog kennel, the measurement to be taken in the same manner as specified above for the 100 feet.

(1) Except as otherwise provided in this chapter, the following fees shall be charged for the impoundment of an animal in the animal control center:

a. For animals other than dogs and cats and for sterilized dogs and cats:

1. \$25.00 for the first impoundment of the animal;
